

THE NEXT GENERATION OF METAL FENCE POSTS!

Superior Strength

Heavy Duty 10 Gauge Galvanized Steel.
Will not rot, wind rated up to 73 mph.

The wide flange increases hold and helps eliminate splitting on wood fence rails.

Easy to Use

No brackets or special fittings required.
Designed for use with standard size (2 x 4) lumber.

Continuous top-to-bottom staggered hole pattern creates optimal concrete keying and support.

Versatile

The same post can be used for line posts, end posts, gate posts and gate stops.

Z-Post is designed for easy installation of kick boards, top caps, lattice work & more!

Attractive

The unique in-line arrangement of Z-Post makes it easy to cover for **the perfect good neighbor fence**. Z-Post can be painted or left with their natural galvanized finish.

Z-Posts can be used for Corner Posts, Line Posts and End Posts.
Typical spacing: 8 -10 ft.

Available at California Home Depot Locations
